 PRICE 2½ CENTS [Delivered to Subscribers] [At All Hotels and on Railway Trains, etc.] [On Sundays and Holidays, 3 Cents]

MONDAY MORNING,

AUGUST 28, 1916.

GENERAL RAILROAD STRIKE HANGS IN THE BALANCE.

OUR FLAG RESTORED

Pacific Mail Liner Flies Old Glory.

Significance of Occasion is Shown by Escort of Two Government Ships.

Effort to Break the Monopoly of Japanese is Made.

[BY A. P. NIGHT WIRE.]

FRANCISCO, Aug. 27.—The American flag was restored today to the trans-Pacific service when the Pacific Mail liner *Mauretania* took its departure for the East with more than 5000 tons of freight and a full complement of passengers. The significance of the occasion was recognized by the government and the battleship *Olympic* and the United States quarantine cutter *Albatross* accompanied the liner through the Golden Gate and into the Pacific.

This was the first time in the history of the port that a commercial vessel has been given a navy escort.

The Ecuador is one of three vessels purchased by the Pacific Mail for this service and to the three, it was indicated today that the company, there will be added, before long, at least three more large passenger liners. Since the old Pacific Mail was retired from the trans-Pacific service nearly two years ago, the line between this coast and the East has been practically monopolized by the Toyo Kisen Kaisha, a subsidized Japanese line.

GOOD MORNING; SEEN BREMEN?

She's on Her Way to United States, Says Cologne "Gazette."

[BY WIRELESS AND A. P.]

BERLIN (via Sayville) Aug. 27.—The Cologne Gazette, as quoted by the Overseas News Agency, says the German merchant submarine *Bremen* is now on her way to the United States with a cargo of dyes. ON WAY, SAYS LOHMANN.

[BY ATLANTIC CABLE AND A. P.]

BERLIN (via London) Aug. 27, 12:30 p.m.—The Berliner Tageblatt today prints an interview with Director Lohmann of the company owning the submarine *Bremen*, in which he says the *Bremen* is on her way to Baltimore and that trade by means of a submarine fleet soon will be increased materially.

[BY A. P. NIGHT WIRE.]

WASHINGTON, Aug. 27.—State Department officials are preparing to send a mass of documents dealing with the Mexican situation and adequate clerical force to aid the joint commission which will seek a solution of border difficulties.

The American commissioners have indicated to Secretary Lansing that they favor Portsmouth, N. H., as the meeting place, but a final decision will not be made until Eliseo Arredondo, Mexican Ambassador designate, has been consulted.

The three American commissioners will have a considerable force of State Department officials and clerks with them in order that there may be no avoidable delay in searching out information they may desire. Among those in attendance will be James Linn, Rodgers, special agent of the State Department at Mexico City the last two years.

ITALY WARS ON KAISER.

Declaration Issued Against Germany.

Hostilities Precipitated by Kingdom Sending Troops into Balkans.

Relations Were Anomalous Since Withdrawal from Triple Alliance.

[BY ATLANTIC CABLE AND A. P.]

BERLIN, Aug. 27 (via Sayville).—Italy has declared war on Germany, it was announced officially today.

The announcement follows: "The Italian government has declared that from August 28 it considers itself at war with Germany."

ROME, Aug. 27.—Italy has declared war on Germany.

Italy and Germany have been drifting steadily toward war. The declaration became inevitable when Italy recently sent troops to Saloniki to co-operate in the campaign of the Entente allies on the Macedonian front, as Germany is directing the opposing forces and has troops on this battle line.

Italy's position in regard to Germany has been an anomalous one since Italy withdrew from the Triple Alliance, May 23 of last year, and declared war on Austria. Although by this act she arrayed herself against her former allies, Germany and Austria, she remained officially at peace with Germany until yesterday. Before Italy took this step Germany exerted every effort to induce her to remain neutral, sending to Rome an Ambassador Prince von Buelow. The Prince for some time averted war between Austria and Italy, and when he saw a rupture was inevitable took steps toward preservation of an official peace between Germany and Italy. He negotiated a special agreement under which, in case of war between Austria and Italy, Germany and Italy pledged themselves to respect the properties and lives of their respective subjects in each other's domains.

ALLIES WERE DISASTROUS.

According to unofficial reports from Europe, Italy's allies were disastrously defeated at the Paris conference of Entente powers in February last when their nation was not at war with Germany. Italy already had a large army in the field and was not to conclude a separate peace, and at the Paris conference sanctioned the plan for a permanent high council of the Entente powers to conduct the war. The increasing co-operation among the Entente allies, and the necessity for bringing the rights of each other's subjects into the war, gradually brought Italy into such a position that it became evident a declaration of hostilities against Germany was inevitable. The first overt act in this direction occurred shortly after the Paris conference.

February 23, Italy requisitioned thirty-four of the thirty-seven German steamships interned in Italian ports to help meet the pressing need of the allies for shipping facilities. Other indications of approaching war have been observed in recent weeks. A German court ruled that Italy and Germany were actually, though not formally, at war. It was reported unofficially that Germany had taken charge of the rights of each other's subjects. The final step was the sending of Italian troops to Saloniki, Italy and Germany severed diplomatic relations last year.

Italy's action probably will have little effect in the military situation in the immediate future, although as the war goes on it may have a more important bearing. On the Austro-Italian front Italy finds active use for hardly more than half her army and in future can send available troops to any front. Having committed herself already to the Macedonian campaign, Italy's step is of no significance as respects that theater of war.

ASKS OFFICES OF SWISS.

[BY ATLANTIC CABLE AND A. P.]

PARIS, Aug. 27.—A Havas dispatch from Rome gives a communication published by the Stefani agency and addressed by the Italian government to the Swiss government. It requests the Swiss government to inform the German government that Italy considers herself at war with Germany from and after August 28.

BOY HELD AS BANK ROBBER.

BROWNSTOWN (Ind.) Aug. 27.—Herschel Phillips, aged 17, was arrested here and charged with attempting to rob the State Bank at Medora, Ind., near here, and with shooting and wounding the assistant cashier, Miss Mera Hunnicutt, Friday afternoon. The youth, according to Sheriff Van Robertson, confessed.

VILLISTAS IN SIX-HOUR FIGHT CAPTURE SATEVO.

[BY A. P. NIGHT WIRE.]

CHIHUAHUA CITY (Mex.) Aug. 27.—Three hundred Villa bandits captured the town of Satevo, Chihuahua, fifty miles south of here, Friday, according to reports to Gen. Trevino today. The outlaws, under Uribe Arango and Martin Lopez, surrounded the town and after six-hours' battle the garrison, numbering 200, under Capt. De La Puente, being without ammunition, was forced to evacuate. Villa himself was not with the outlaws, it was said.

The dispatches, which came from Gen. Ellsondo, made no estimate of the casualties on either side, but said that both the bandits and government troops lost heavily. In the early hours of the engagement a number of outlaws were captured and executed.

The garrison withdrew, according to the reports, to the hills, where they were reinforced by detachments of Gen. Ellsondo's command and plans have been made to attempt to recapture Satevo.

COMMISSIONERS LEAVE.

[BY A. P. NIGHT WIRE.]

MEXICO CITY, Aug. 27.—The Mexican commissioners who are to endeavor to settle with an American commission points in dispute between the United States and Mexico, departed for New York today. Luis Cabrera, president of the Mexican commission, accompanied by James Linn, Rodgers, the American representative to the Carranza government, proceeded to Vera Cruz, whence they will sail tomorrow for Key West on board the United States transport *Dixie*. Alberto J. Pani and Ignacio Bopillan, the other members of the commission, proceeded for Saltillo, where they are expected to arrive tomorrow morning.

Before departing Senor Cabrera and Mr. Rodgers conferred with Gen. Carranza, Minister of War Oregon and Foreign Minister Aguilar.

Predicted.

EXPECT SHOWERS TODAY IN SANTA CLARA VALLEY.

[BY A. P. NIGHT WIRE.]

SAN JOSE, Aug. 27.—An unseasonable electric storm passed over the Santa Clara Valley before midnight, accompanied by a light sprinkle of rain. Showers predicted for tomorrow threaten to do damage running into the tens of thousands of dollars to the valley's ten million dollar prune crop, much of which is on the trays in the process of drying.

Rain warnings were sent throughout the county tonight by the United States Weather Bureau station in the hope that orchardists would get some of their prunes under cover.

AT STOCKTON.

[BY A. P. NIGHT WIRE.]

STOCKTON, Aug. 27.—A light rain, accompanied by thunder, fell in Stockton this morning at 9 o'clock. Heavier rains were reported in the Calaveras foothills east of here.

AT SACRAMENTO.

[BY A. P. NIGHT WIRE.]

SACRAMENTO, Aug. 27.—A trace of rain fell in this city today. It is slightly cloudy tonight.

STEAMBOAT STRIKE FAILES.

[BY A. P. NIGHT WIRE.]

PORTLAND (Or.) Aug. 27.—Union steamboat men on the Willamette and Columbia rivers who have been on strike since June 1 officially called off the strike yesterday and agreed to return to work. The men are to return under open shop conditions and are to receive the same wage, \$45 a month, which is being paid nonunion men.

RETURNS WERE COMING IN SLOWLY tonight, but indications are that Culberson's majority will be in the neighborhood of 75,000.

WILSON PINS FAITH TO LEGISLATIVE PROGRAM

Hopes Road Presidents May Accede in Part to Eight-hour Plan.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

WASHINGTON BUREAU OF THE TIMES, Aug. 27.—A general railroad strike hangs in the balance.

It is reliably reported that the strike order, which the 640 chairmen carried in sealed envelopes when they left Washington, is to enter into effect on September 4, unless an agreement should be reached prior to that date.

It is further reported that the railroad presidents may not present tomorrow their rejection of the President's program, but will await developments of Mr. Wilson's legislative activities.

The President still believes he will avert it. Tonight he pins his faith on a legislative program, hoping meanwhile that when he receives the answer of the railroad presidents to his eight-hour proposition at 10 o'clock tomorrow morning, it will contain some concession.

Mr. Wilson will be disappointed. The railroad executives will decline absolutely. They will point out that the question is not one of "social tendencies," but a question of a wage increase amounting to 20 per cent, or more. And once again, they will insist on arbitration.

They will also offer to try out

Legislative.

PRESIDENT MAY ADDRESS JOINT SESSION TODAY.

Executive Discusses Prospects with Senator Kern when it Seems Virtually Certain Break Between Railroads and the Men Must Come—Members of Brotherhood Committee, Tired of Wait, Depart.

[BY A. P. NIGHT WIRE.]

WASHINGTON, Aug. 27.—Tentative plans for a joint session of the Senate and House to hear President Wilson ask for legislation to prevent the threatened nationwide railroad strike were discussed tonight by the President with Senator Kern, the Democratic leader, when it seemed virtually certain that a break between the railroads and their employees must follow final conferences at the White House.

Possibilities of legislation were talked over by the President with Senator Newlands, chairman of the Interstate Commerce Commission, and Secretary Lane and Mr. House. President made a quiet trip to the Senate office building to find Senator Kern, who was attending a meeting of the Finance Committee.

The belief that negotiations between the railroad executives and representatives of the men would end without an agreement has been growing.

UNION MEN DEPART.

This feeling was strengthened when the members of the Brotherhood Committee of 640, tired of after deliberation, departed to effect a settlement or call a strike to a committee of twenty-four, instructed to make recommendations to agree to arbitration of the demand for an eight-hour day at the present rate of pay for ten hours.

Whether the plans considered by President Wilson and his advisors at the Capitol will be carried out depends upon developments, but it is understood that if all efforts fail to bring the employers and their men together, the President will go before Congress and ask that it deal with the situation even if that necessitates indefinitely prolonging the session.

Unless the railroad heads accede from their demand for arbitration even if that necessitates indefinitely prolonging the session, a strike affecting about 400,000 men will be called within the next twenty days.

SEE WILSON TODAY.

Representatives of both the railroads and the Brotherhood will confer with the President tomorrow. Executives of the lines will present the plan, the outstanding feature of which is a demand for arbitration of wages under the eight-hour day or any day. When they have departed the Brotherhood heads will go to the White House and apprise President Wilson that they cannot accept arbitration of this feature of their demands and that in general they stand on his proposition to concede the eight-hour principle and arbitrate the other issues.

There was a report tonight that the President might ask the men to postpone action for a period in order that he might seek legislation which would force and provide for a settlement without tying up the country's transportation system.

Secretary Lane and Senator Newlands worked until late tonight framing bills for presentation to Congress.

The measure given most serious consideration was one drawn along the lines of the Canadian act, which provides for investigation of industrial disputes by a commission for one year, and prevents strikes or lockouts during the period of investigation.

At today's conference consideration was given to the problem of

CITIZENS TRUST AND SAVINGS BANK
Dear Bill:
I have had another streak of hard luck, so must fall back upon you again for help. I was satisfied yesterday that the plant will be closed down for several months, which will leave me without work.
I am too old to receive any consideration from other firms here, as feel that I am up against it good and hard unless you come to my rescue and send me enough money to tide me over. Will you please send me \$500.00?
Near Bill, please don't say "I told you so," for I fully realize how foolish I have been, not to think sooner of this time of life. I have wished many times lately that I had taken your advice and saved a part of my salary when I was making good money.
I am now at the Citizens Trust and Savings Bank waiting for cash. I notice a sign in the window that you can open an account for one dollar. Believe me, if I get another job I'm coming down here and when an account even if it's for only a dollar. Hoping to hear from you real soon, I am always,
Fred

SHIPMENT ATTESTS LOS ANGELES POSITION AS PREMIER LUMBER PORT.

A million feet of mine timber for Arizona. Which was shipped from here last week in a sixty-car train. The shipment was made by Charles R. McCormick and Company of this city, San Francisco and St. Helena, Or. The photograph was made by M. L. Bailey.

LOS ANGELES LUMBER SHIPMENTS BULK BIG.

Empire.

At present the last mile of the city, San Francisco and St. Helena, Or. Nearly all the lumber went to concerns at Globe, Miami and Clifton.

The magnitude of this shipment of lumber, timber emphasizes the general activity in the mining camps of Arizona. Every foot of the timber is pine, of dimensions ranging from 4x6 to 12x12, and will be used in the development of the Humboldt.

SIGNS OF PROSPERITY.

Authoritative.

Secretary of Development Board Reports Activity Throughout State in Building and Road Making—Favor Highway Bonds.

W. D. Edgbert, secretary of the California Development Board, was in Los Angeles yesterday on a tour of the State, during which he is making a general crop survey. He has visited twenty-six counties in fifteen days and expects to see every county in the State within forty days.

"The most notable feature I observed," he said at the Chamber of Commerce, "is that there is a great deal of public work under way and more is contemplated. A general activity is noted in building and road making. Everywhere I have found a strong sentiment favoring the State highway bond issue for \$15,000,000 to be voted on at the next general election. The people seem to appreciate the value of good roads to the community and State."

Welcome.

DR. SHIELDS DUE TODAY.

New Superintendent of City Schools has been Giving Lectures at Columbia University Summer School—Dinner Plans Made.

Dr. Albert Shields, the new superintendent of schools, is expected to arrive in Los Angeles this afternoon on the Santa Fe, according to a letter received from him yesterday. Dr. Shields was expected to reach this city some time ago, but was detained in New York by the delivery of a course of lectures at the summer school at Columbia University.

Former Judge Walter Bordwell, president of the Board of Education, will introduce Dr. Shields at a dinner that has been arranged at Christopher's for next Tuesday evening by the municipal league. Dr. Shields will address the gathering on the subject of "The Relation of the Community to the Schools."

There will be addresses also by President John Willis Baer of Occidental College, President George F. Boyard of the University of Southern California and President James A. B. Scherer of Throop College of Technology.

Gargantuan.

GROWS RECORD PEARS.

Woman Orchardist of Elizabeth Lake Sends Chamber of Commerce Finest Bartlett's Ever Seen There—Antelope Valley Has Many Trees.

To a woman orchardist belongs the credit of bringing to the Chamber of Commerce the finest samples of Bartlett pears ever brought to the exhibit hall. Four of the fruits averaged more than a pound each in weight; the largest reaching one and a quarter pounds. The samples are being processed for a permanent exhibit.

The fruit was grown by Mrs. James Heffner of Elizabeth Lake in the Antelope Valley. In this section there are more than half a million pear trees in bearing and a curious feature of the crop is that some years ago it was declared that pears could never be grown successfully in that locality. Now they are gathering from four to ten tons an acre from trees that begin bearing when they are 3 years old. Not only is the fruit of superior quality, but it is free from scale and blemish.

PLUNGES INTO BOILING MUD AT VOLCANO LAKE.

Strange Accident.

Man is So Severely Scalded Only Skin Grafting Can Save Him.

SINKING in a boiling mud pot to his waist, Walter O. Hamilton, president of the Imperial Irrigation district, barely escaped being scalded to death yesterday, when the earth crust broke under his feet at a point near Volcano Lake. He was so badly scalded from his waist down that skin-grafting will have to be resorted to to save his life.

The strange accident, which is the first of the kind on record in the Volcano Lake section, happened while Mr. Hamilton was showing some friends the geysers and mud pots in that vicinity, which is about thirty miles south of Calexico on the Mexican side of the border.

The temperature of the water and mud that boils up from the earth in this region, which is close to the scene of the recent volcanic disturbance, is 250 deg. Fahrenheit. C. R. Lockwood, who is in charge of the work of excavating a new canal in the vicinity of Cerro Prieta, took Mr. Hamilton to Calexico on a work train, which made a record run, in order to secure medical aid for the scalded man.

Mr. Hamilton, who weighs 200 pounds, was within twenty feet of one of the seething mud pots when the accident happened, and was it not for the fact that he spread out his arms and held himself from sinking into the boiling mass beneath, until his companions reached him and pulled him out, he would have undoubtedly been completely submerged and would have been dead before he could be gotten out.

At a late hour last night he was reported to be resting easily and his physician holds out hope that he will speedily recover, but says that skin grafting will be necessary.

BAPTISTS UNITE.

Amity.

Pastor of Alhambra Church Urges Union in Interest of More Effective Work, then Presents Resignation to Surprised Congregation.

A union of the First Baptist Church of Alhambra and the Emmanuel Baptist Church of that city is being effected, in the interests of more efficient church work in that locality. The union was the subject of a sermon yesterday morning by Rev. J. N. Garst, pastor of the Emmanuel church, in which he urged that all Baptists of Alhambra, now join the united church and give it their hearty support.

After the sermon he read his resignation, which is to take effect September 27, to a surprised congregation. He accepted the call to this pastorate in February of last year, and during his pastorate about one-third of the present membership was added to the church.

COAST SIGNALS ARE TO BREAK THIRTY-MILE GAP.

For Mariners' Safety.

PRELIMINARY negotiations with the Palos Verdes Rancho Syndicate for the purchase of eight acres of land for a site for lighthouse and fog-signal station for Point Vicente are under way, according to information given out here yesterday.

The Department of Commerce, through Capt. H. W. Rhodes, is carrying on the negotiations with the syndicate that controls the vast ranch property including the hills lying back of San Pedro and reaching over well toward Redondo Beach. The point of the proposed signal is the sharp headland at the southwest corner of the Palos Verdes Rancho, about midway between Point Fermin and Redondo Beach.

This new light will break a gap of thirty miles along the southern coast line of California, and will greatly facilitate navigation in these waters.

HUNTER WINS AT LAKE GENEVA.

BY WINNING THE H. H. HUNTER CUP.

Robert C. Hunter of Los Angeles, by winning the honor of carrying the main trophy in the annual tournament of the Geneva Country Club, which is held this afternoon, has won the H. H. Hunter Cup.

The tournament, which is the main event of the week, is held at the Geneva Country Club, which is located on the shore of Lake Geneva. The trophy is named after the club's founder, H. H. Hunter.

The tournament is held annually and is one of the most important events of the season. The winner of the tournament receives the H. H. Hunter Cup, which is a great honor.

Robert C. Hunter, who is a professional golfer, won the tournament by a score of 108 strokes. He is the only Los Angeles golfer to have won the tournament.

URGENT ALL CALIFORNIANS TO VOTE FOR BOOTH TOMORROW.

THE following statement in reference to the candidacy of Willis H. Booth for the United States Senate was issued last night by the State Republican Executive Committee and the State Republican Campaign Committee:

"Go to the booth for Booth!"

"As a result of the unanimous choice of the recent Statewide convention, attended by duly elected representatives of the Republican party, Willis H. Booth goes into the nominating primary next Tuesday as the only real and genuine Republican candidate for United States Senator. The campaign for his nomination as the Republican candidate has been made solely upon the grounds of political fair play and justice and the preservation of Republican party integrity.

"His opponent, a staunch Progressive and well-known enemy of the Republican party, is attempting to invade the Republican primary. His attempted invasion should receive strong denunciation at the hands of the Republican men and women of California at the primary election.

"California, with her citrus industries and her coast, surely needs a Republican representative in the United States Senate. She needs a United States Senator who will be able to gain the ear of the administration; a representative whose allegiance to Republican principles and policies has never been questioned; a man who is a business man, thoroughly acquainted with economic, social and political conditions not only in this country but abroad, and above all, a man who knows the needs of California, and who is vitally interested in her success.

"Such a man is Willis H. Booth of Southern California.

"Hiram Johnson, if nominated and elected to the Senate, would be a political outcast in Washington. Being neither a Democrat nor Republican, but a member of the defunct Progressive party, which opposed the nomination of Charles E. Hughes for President, he would find himself without friends or political prestige, and would be nothing better than a 'rubber stamp,' without any influence or following.

"The northern part of the State now has a United States Senator. Precedence and tradition demands that Southern California have a representative in the upper house of Congress."

PEN POINTS
BY THE STAFF.
Get your voting clothes on!
It looks as if Woolwine may be elected the first time.
Prince is certainly coming to the stretch fast, for Congress.
Never imagined that Mahd would need the advertisement.
The one best play in the theater was made by Hiss.
President Wilson now realizes that Charles Evans Hughes has not notified.
We shall know more tomorrow about the influence of the bill in politics.
Yes, keep the experienced men on the bench. The courts are to be tried with.
But the infantile paralysis is confined to infants. Look at the Bull Moose, frantically.
The old song "Keep the Fire Burning," is rather out of place at this season of the year.
Will the threatened increase in price of leather play on the steak and oyster varieties?
The Turkish army has been destroyed again. The Turks have lives than the proverbial cat.
What's that a shortage in Julius Caesar receipts? Search for his bath and a hungry horse.
Next Friday is the date now for the adjournment of Congress. That is, if it does Wilson will stay.
Another way to find out if I read editorial notes is to make a take, and you are at once convinced that they do.
When Yale's bowl is completed will have cost a million dollars. That ought to satisfy the lovers of the higher education.
With the advent of the late summer rains, the men along the border now have some trouble keeping their powder dry.
Rev. Paul J. Goodwin, 13 years of whose salary is \$3 a week, was paid in Pasadena, Tuesday. Good Paul, take her yourself!
If Secretary Daniels would only to it that the armor of our business was made as impervious as his to the big war were used for the uplift and social welfare of the people!
Oom Paul Koenig of the Dunes land will write a book, "The Dunes of the Dunes," a collection of poetry, dedicated to his own brow.
A quarter of their million dollars salary is but \$3 a week, paid in Pasadena, Tuesday. Good Paul, take her yourself!
The business of selling American-made goods in England is still going on, and the protest no longer takes the form of a protesting. The election is coming.
Hughes, Taft and Roosevelt invade Maine this week. If seeing them on the same plane the State neglects to do the best thing it may be set down as a laughing stock.
Somebody appears to have taken a monkey-wrench into the machinery of the railway law. A good turn for the railway law. Good in the strike kingdom.
Cotton is king, not only in South, but in Southern California. Imperial Valley, as an estimate of 95,000 bales eloquently means millions of dollars for ranchers.
The old-fashioned easterner, "have you sold your vote?" added interest now, coming in the astronomical price of the real. The threatening season is back there.
Senator Carranza says that the situation has been reconstructed. The country is completely in his hands. That means his present job is interminable.
The banks report increasing profits, but that is no indication of the prosperity of the country. The banks do not make the money, but money in circulation for public and private improvement.
The next Senate is one of the prizes in the campaign, and parties will make a hard fight for its control. At the present time, fifty-six Democrats and thirty-nine Republicans are in the Senate. There must be a net gain of one Republican to win the Senate. It is believed that this can be done.

MONKEY HOLDS WHOLE TRAIN.
Sits on Track Grinning at Scared Engineer—Shot by Mr. Monk.
[LOCAL CORRESPONDENCE.]
BISHOP, Aug. 28.—Because a large monkey belonging to Miss Katherine Smith wasn't served breakfast at the usual hour yesterday morning he went on a widespread rampage, bit a young lady in the ankle but couldn't make a meal of it, climbed all over a man he disliked, and finally held up a passenger train.
As a climax he got mixed up, scurried-egg fashion, with a man named Mr. Monk, and scratched his face severely. The two-legged monkey objected and when he could find a gun he pumped shot into the four-legged monkey until he resembled a sieve and ceased to breathe. His mistress is disconsolate.
The Southern Pacific company, through its engineer and fireman, was astonished and frightened when the monkey, half standing in the middle of the parrow-gauge track and grinning horribly, confronted the locomotive. The face was too much for the company and the engineer shut the throttle and threw on the handbrakes or something.
The startled passengers got off and helped chase the chattering simian away. The conductor delivered himself of an oration that wouldn't have served as an eulogium at the monkey's funeral.
It was taken to his home later in the evening.
Six hundred members of the Workmen's Circle, a Jewish organization, plunked today in Monrovia Canyon Park. They came in the city in twenty-five automobile trucks, and remained during the entire day to the camp and cooking privileges were granted them.
EIGHTY-TON AUTOMOBILE.
A motor car that weighs eighty tons, requires a crew of thirty men to drive and a specially-built road for its passage is being speedily up the San Gabriel Canyon today at the rate of about a mile an hour. The "automobile" is in reality a traveling steam shovel, equipped with caterpillar wheels, and is being transferred from the new Bakersfield bridge, just completed, to the head of the San Gabriel Valley road, six miles above the mouth of the canyon. It will be put to widening the mountain highway by biting out chunks from the mountainsides.
Sea breezes are cool and refreshing at "Hotel del Coronado."—[Advertisement.]
ENJOY WINTER SPORT ON SUMMER OUTING.
[LOCAL CORRESPONDENCE.]
MONROVIA, Aug. 27.—Snowballing, bob-sledding and other winter sports served to vary the more conventional pleasures for Henry Gierlich, B. G. Steinhilber and their families, who have just returned from a ten-day camping trip in the hills near Mt. San Antonio. It was while camped near this peak that the vacationists climbed to the snow line and revelled in the yinty atmosphere.
Eight members of a Monrovia Boy Scout troop leave Monday at midnight for a week's trip to San Diego and return. They will carry complete camping equipment and expect to cook their own meals on the way down and back. Under the leadership of their scoutmaster, Clifford Scott, the boys who will make the journey are, Oscar Marshall, Henry Calkin, Fred Dillon, Rupert Smith, Arthur Estell, Albert Miller and Herman Helmreich.
Removed: "Hotel del Coronado" Agency moved to 527 Spring street. —[Advertisement.]
FILE ON OIL CLAIMS IN SHASTA COUNTY.
[LOCAL CORRESPONDENCE.]
MCKITTRICK, Aug. 27.—News has come from Shasta county that much interest has been aroused among oil men and others in the northern part of the State, by the locating of petroleum claims in the vicinity of Buckeye, with a view to exploring land thought to be oil bearing.
Immediately after some tracts in the Sand Flats region, two miles east of Buckeye, had been located, many applications for location blanks were made, and it is expected that a large number of these will be filed without delay, owing to the fact that two companies prospecting this field fourteen years ago, and found indications of oil after sinking two wells to a depth of 400 feet, ceasing operations for lack of money. Now that other ventures are projected the fever is said to be rapidly spreading and the activity has assumed the proportions of a "boom."
Height of the season at "Hotel del Coronado." Join the crowds.—[Advertisement.]

GREAT VICTORY FOR OPEN SHOP.
Building of Submarines Goes on Unobstructed.
More Men than Needed Apply for Good Positions.
Memory Lapse Believed to be Cause of Absence.
[LOCAL CORRESPONDENCE.]
LONG BEACH, Aug. 27.—This city's greatest industrial plant, the California Shipbuilding Company, has triumphed over union-labor domination. Manager Foley, of the plant, stated today that the strike begun by the machinists, blacksmiths and helpers more than three months ago is over, and the banner of the open shop floats above the plant. Mr. Foley states that he has more applicants for work than he can accommodate.
Federal Mediator Connel called at the plant yesterday to say good-by to the officials of the yard. He stated his labors were over. The pickets who for many weeks loaded across the street from the yard entrance have disappeared.
Owners of industries in the Long Beach Harbor district, encouraged by the firm stand against union-labor dictation taken by the shipyard officials, are standing in their united stand for the open shop. It is stated that the manufacturers are planning an organization to perpetuate the policy.
Labor bosses imagined that they would gain an easy victory when they struck while the United States submarines were being built. But the naval officers and Naval Constructors Fogarty realized the situation, and were patient with Manager Foley until he assembled independent workmen to take the places of those who left good jobs. With a full force working smoothly, the construction of the warships is progressing satisfactorily to the government.
AGAIN DISAPPEARS.
Walter E. Roberts, aged 40, married, who lives at No. 819 Temple street, and who caused great anxiety to his wife and friends when he disappeared while suffering a lapse of memory four years ago, is again missing, and the police of many cities have been asked to locate him. He left his home on August 3. He was an electrician, and held a good position. It is believed that he has had another memory-lapse.
Roberts first disappeared in May, 1912. Four months later he was found in Bakersfield, going under the name of G. E. Roberts. A friend identified him, and he came on his arms. At that time he remembered nothing of his life before he came to Bakersfield, but when confronted by his wife his memory came back to him. It is stated that his home life is happy and he is not ordinarily of a wandering disposition.
SAVED FROM FIRE.
Neighbors of the Phillipson family at No. 155 East Twelfth street, moved two children, aged 8 and 11 years, from burning to death this morning when they rushed into the burning home and carried the children to safety while others telephoned an alarm.
The children, left to their own resources when their parents went to church, began playing with matches, and the soon had the kitchen on fire. They were bewildered when the smoke filled the house and neighbors were just in time.

SHOWER FALLS AT BAKERSFIELD.
[BY TELETYPE.—EXCLUSIVE DISPATCH.]
BAKERSFIELD, Aug. 27.—The south end of the San Joaquin Valley received a refreshing shower tonight which fell in a downpour. This is the first rainfall since last spring and is very welcome, as it is a period of three hot, sultry days. Slight hail fell in streaks throughout the afternoon.
A thunderstorm has played across the valley from the Tehachepi to the Coast Range, and other storms rattled the mountains during the past week.
Tonight's soaking rain is the third measurable precipitation experienced lately on the Tejon range, which lies against the foothills along the auto route to Los Angeles.
REMOVED: "Hotel del Coronado" Agency moved to 527 Spring St. —[Advertisement.]
ELEVENTH DISTRICT WANTS HARBISON.
[LOCAL CORRESPONDENCE.]
SAN BERNARDINO, Aug. 27.—The election in San Bernardino centers in the likelihood of two San Bernardino men being nominated, one for Congressman and one for Supervisor.
R. C. Harbison, candidate for the Republican nomination for Congress from the Eleventh District, is confident that he will defeat his two opponents, E. C. Hinkle of San Diego, Republican, and J. S. Edwards, a third party prohibitionist of Redlands, who is after the Republican nomination as well.
"Eleventh District voters want a turnover in national administration," declared Mr. Harbison today. "They want a Republican President and they want a Republican Senator from California and a Republican Congressman from the Eleventh District. This is evident from the registration, which shows a Republican plurality of 30,000 in this section of the State."
San Bernardino expects to elect a man to the Board of Supervisors for the first time in twenty years, in the personage of Mark B. Shaw, who has conducted an abent campaign, owing to the fact that he is chaplain of the Seventh California Infantry and stationed with his regiment at Nogales. "Elect Mark B. Shaw at the primaries," is the campaign slogan adopted by his friends, who are looking after his campaign. He will be opposed for the nomination by V. V. Horton, incumbent, of the district, F. J. Taylor and Grant McIntyre.
Splendid motoring to "CORONADO."—[Advertisement.]

FIND MARIJUANA IN MEXICAN YARD.
[LOCAL CORRESPONDENCE.]
ONTARIO, Aug. 27.—A campaign locally against the growing of marijuana or Indian hemp following the recent killing at Chino of C. W. Keller by a Mexican, supposedly caused from smoking the leaves of the plant, bore fruit last night when Officer Arthur Axley discovered a large quantity of the narcotic growing luxuriantly in a yard in the Mexican quarter here.
The marijuana plants were practically concealed in a clump of trees. Some of the plants have grown to a height of fourteen feet. The leaves are said to be used by the Mexicans for medicinal purposes as well as for smoking, but its cultivation is now prohibited by law. The plants have been confiscated.
Call and see Coronado Co.'s office, 527 Spring St.—[Advertisement.]
PACKING PLANT HANDLES MEAT.
[LOCAL CORRESPONDENCE.]
POMONA, Aug. 27.—Although it is not generally known, this city has a meat packing plant that handles nearly 1500 head of live stock a month and supplies fresh government-inspected meats to all the towns within twenty miles. The plant of the San Antonio Meat Company occupies more than twenty acres of ground and slaughters about 15,000 head of hogs, sheep and cattle a year.
Most of the live stock killed at this establishment is bought from the ranchers in the neighborhood of Pomona and Chino, but in case of shortage the company sends its buyers into Imperial Valley and Arizona to pick up a few cars of alfalfa-fed steers. The business of the company consumes 400 steers, 600 sheep and 400 hogs a month, and the plant is the only one in Southern California outside of Los Angeles and San Diego which has a government inspector.
Height of the season at "Hotel del Coronado." Join the crowds.—[Advertisement.]
NERVOUS TROUBLE CAUSES SUICIDE.
[BY TELETYPE.—EXCLUSIVE DISPATCH.]
SAN DIEGO, Aug. 27.—Andrew G. Dahl, a retired wealthy resident formerly of Butte, Mont., shot himself in the head early this morning in the ball park close to home in the Dahlia apartments and killed himself.
Dahl, who owned the Dahlia apartments on Logan avenue, was discovered dead by a newsboy. On his body was found a note to the coroner saying he could stand it no longer and requesting that his relatives be notified. Dahl's wife died last December. They had no children. They came here eight years ago from Butte. He had an income of about \$8000 or \$10,000 a year. Dahl's relatives are Mrs. Elizabeth Anderson of Denver, a sister; Roy I. Anderson of Sacramento, a nephew; Elva C. Strand, Helena, Mont., a niece; John Dahl, New York, a brother, and Mrs. Margaret Olsen, Kansas City, a sister. A nervous breakdown is said to be the cause of the suicide.

SCIENTISTS TO HAVE FINE NEW CHURCH.
[BY TELETYPE.—EXCLUSIVE DISPATCH.]
SAN BERNARDINO, Aug. 27.—The contract for a beautiful new church building for the First Church of Christ, Scientist, to be situated on E street, between Seventh and Eighth streets, was today awarded to H. M. Howard & Sons of Los Angeles. The structure will cost \$15,000. The electric and wiring contract goes to the Electric Lighting and Supply Company and the heating to Fomberton Brothers, both of Los Angeles. The plumbing contract was let to Gus Johnson of San Bernardino.
G. A. Howard, Jr., of Los Angeles, is the architect. Work on the church will be started next week. The exterior walls will be of old gold brick and white plaster with red tile roof, the general lines being of a modified Spanish design.
BUILDING NEW BRIDGE.
[LOCAL CORRESPONDENCE.]
SANTA ANA, Aug. 27.—Construction of a concrete bridge on the State Highway on West Chapman street, near the County Hospital, will start next week. Beginning tomorrow the highway will be closed for three or four days, and travel to Santa Ana will have to be by way of the bridge between Anaheim and Orange, or by way of Garden Grove and West Fifth street. The present wooden bridge on the State highway will be moved and used during the construction of the concrete bridge.
Up-to-Date Cupid.
[Ladies Home Journal.]
"Engaged to four girls at once!" exclaimed the horrified uncle. "How do you explain such shameless conduct?"
"I don't know," said the gracious nephew. "I guess Cupid must have shot me with a machine gun."

colbalt is therein in any commercial quantities, and what yellow, and blue incrustations if not either.

D. No sample is strictly pyrrhotite. The ores are very base. No. 1 is chiefly of brassy pyrite, and pyrrhotite is present in galena, blende, sphalerite, limonite and copper (silicate and carbonate) incrustations. Samples of all (save pyrrhotite and pyrite) are sent. No. 2 is a siliceous mixture, as it were, of pyrite, pyrrhotite, galena, blende, nickel and cobalt traces. No. 3 is pyrrhotite and pyrite. No. 4, pyrite and pyrrhotite, chiefly; pyrite in excess. A sample representing the whole would be analyzed in next best. Then gives the ores commercial. The ores are favorable ones.

 All calls are in WINDSOR SQUARE
 All real estate contracts to be
A. ROWAN & CO.
 200 Title Insurance Bldg.

Stone and marble quarries of all descriptions are very busy. This is not true of slate, which is generally in excellent shape. The principal exceptions to this are coal mines and the steel industry, which are suffering from strikes or lack of demand. In the general wheat situation conditions are more bullish. The world's crop as estimated by the Agricultural Research Service is 25 per cent. short of last year's. Reports from Europe confirm all previous claims of shortages. Conditions favor sellers of wheat, but the question in the mind of traders at present, is how much of the bullishness in existing conditions has been discounted by prices, which are 49 1/2 to 58 1/2 cents higher than last year in Chicago alone.

The building industry is reported to be in generally excellent shape. It is, in the opinion of the committee, the best barometer of general business since building in the country districts means the extensive use of steel.

Petroleum.

mittee report concludes, the building
outlook continues good.

SPEAKER PRODUCTION.

Preliminary figures issued for First
Half of Year.

The production of spelter in the
United States, during the first half
of 1916, according to the preliminary
figures of the United States Geologi-
cal Survey, was as follows:

	Short tons
Spelter on hand, January 1.....	14,233
Production, including 6000 bushels of Durum, bought by Greece Saturday.....	100,000
Production from foreign countries.....	65,728
Total.....	280,000

Wholesale.....
Domestic.....
Foreign.....

FOREIGNERS BUYING.

Foreigners continue to buy wheat
on heavy breaks, while bears become
aggressive on the weak spots, but
have been most unfortunate of late.
While some have cut out wheat
at 20@30 cents a bushel lost. Export
sales last week were 3,000,000
bushels, including 6000 bushels
Durum, bought by Greece Saturday.
Cash premiums in all leading
markets advanced materially last
week. It is most likely to have some
premiums at this time of the year.
Millers are buying wheat in the

IN McKITTRICK, LOST HILLS
AND BELMIDGE FIELDS.

With Deepening of Wells in
These Districts, Greater Figures
for Current Month are Expected.
News of Development in West-
ern Kern County.

[LOCAL CORRESPONDENT.]

McKITTRICK, Aug. 17.—Oil pro-
duction in the McKittrick district in
July was somewhat greater than for
any month in a long time, amounting
9504 barrels per day, from a total
of 255 wells. The average daily
yield in the last few years has been

and easy. Closing before the time
speculated to the \$1.10 price
subscriptions to the new British
loan of \$250,000,000 is a midlight
not only on the ability of our market
to absorb large offerings, but on the
rapidly-increasing familiarity of in-
vestors with foreign issues, and
their willingness to take such in-
sures. The showing contrasts strik-
ingly with the slow digestion of the
Anglo-French loan last fall. As the
producer of the country will prob-
ably be relieved, the collateral feature of
the loan seems to have made the strong-
est appeal, giving rise to an invest-
ment fund being the first half of 1916
in various parts of the coun-
try.

On call money to brokers is quiet
and somewhat greater than for
any month in a long time, amounting
from 3 1/4 @ 4 1/4 per cent, for dates up
to six months, according to charac-
ter of names and collateral. Year
longer, according to that of the War
Line, which owns 22 per cent.

COPPER SALES.

Copper producers place sales for
the last week at close to 70,000,000
pounds, following the previous
week's bookings of about 150,000,000
pounds. Prices strengthened further
to a 28-cent level, as quoted by the
larger sellers. Practically every pro-
ducer in the country will figure it is
expected, in the pending order for
500,000 pounds, to be delivered to
French and British munition fac-
tories, during the first half of 1916.
Atlantic Gulf and West Indies has
acquired a controlling interest in the
Mexican Navigation Company, which
owns a fleet of ninety ships, two of
which have just been built in Ameri-
can yards. This service has been
contingent to that of the War
Line, which owns 22 per cent.

Unusual Ease in Monetary Situation at Crop-moving Season—Surprises Bankers—As Entente Powers Need More Loans They Have Incentive to Keep American Money Market Comfortable.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

CHICAGO BUREAU OF THE TIMES, Aug. 27.—The unusual ease in the monetary situation may be regarded as a distinctly stimulating influence in connection with the optimism that prevailed in stock exchange circles last week. Recent statements of the associated New York banks have been particularly significant of the trend of the money market, and have surprised

the same time to be a higher market for money in New York.

Furthermore, as additional loans may be expected for the Entente government, tight along, there is direct encouragement to keep the money situation here in a comfortable position. While primarily intended, it is supposed to be accurate for its influence in financial circles, the promise of a protected, eased money situation is not without its particular significance to business interests

The Reward Oil Company is re-drilling well No. 5 on its lease in the north end of the McKittick field, and other work in the immediate future will consist in the spreading of well No. 42.

Construction of the two 55,000-barrel tanks on the Standard Oil Company's lease in the McKittick district is still keeping a force of men employed, but will soon be finished.

The Sunbeam Oil Company, in which several Los Angeles capitalists are financially interested, is making arrangements to erect three rigs on its property in the North McKittick tract, work to commence within the next few days.

The State Consolidated Oil Company is operating in the United States only.

TROL
...there are railroad companies in all the States whose interests clash or conflict with that of the Interstate Commerce Commission. For a number of years railroads have endeavored to come from this double-edged sword and to secure the abolition of supervision of every sort.

...investigative inquiry into the transportation problem of the country is soon to be commenced. A new Congressional commission, in which the various States have presented their restrictive railroad superintendency authority.

...sum on one large field of action after another was taken by Congress. This was due to the growth of the

...bankers, who usually look forward to a tightening at this time, the crop-moving period of the year.

Without doubt important operations in the money market are taking place outside of the usual channels, that may be set down as a result of the allies' financing on this side. A well-informed banker expresses the opinion that there has been a considerable distribution of gold and other cash resources to pay off current loans in this market for the allies.

This would account for some of the large cash gains of recent date. In former years, with the exception of last year, which was abnormal, it has been customary for the bank statements at this period to show a decrease in the gold reserves of a whole. Two and three-quarters to three cent money rate in New York of late has been the English and French loans aggregating for \$350,000,000 are being distributed, and when there is in view, too, a possible \$100,000,000 States government loan, is certainly a remarkable phenomenon.

The war is serving to bring about a notable shifting of financial strength from the Old World to America. Two years ago, at the time the war began, the combined gold supplies of the four great central banks—Europe—England, France, Germany and Russia—was \$680,000,000 in excess of the total gold supply of the United States. Today the gold supply of this country has increased so far as to be within \$50,000,000 of the combined holdings of the four great reserves of Europe.

RIALTO.

Natural.
CONVINCING DRAMA."WEAKNESS OF STRENGTH" IS
STRONG PHOTOPLAY.

By Grace Kingsley.

The strongest and sincerest photoplay drama the symphony has shown in many a day is to be found in "The Weakness of Strength," in which Edmund Bressie is starred this week. Here is photoplay which is convincing, and acting which is clear-cut. In vain one looks for the impossible fortuitous circumstance, the villain who villains for the pure joy of villainizing, the too-perfect hero.

Bressie has been ideally cast as the hard-willed, imperious Daniel Gaynor, and so are also Ormi Hawley and the rest of the excellent cast in their respective roles. So natural and so logical is the action that the spectator appears to be viewing not acting, but real people working out their several fates.

Even the happy ending, for which one does not look early in the picture, is an absolute natural outcome of events.

An unusually good Max Figan comedy completes the bill.

Palace.

If you feel in the mood for rippin' comedy of the higher type, go

and view the all-star cast, which is playing the brilliant little photoplay, "Home," at the Palace. Perhaps you will not again see in an inco picture such an aggregation of actors, especially as at least three of them have, since the making of this picture, been elevated to the lonely heights of stardom. Bessie Barriscale has the leading role, with Charles Ray, Louise Clalum, Clara Williams and others in support.

Not since Miss Barriscale played Clyde Fitch's "Girls" on the stage has she to my knowledge had an opportunity for such delightful and rollicking comedy as that of "Home," in which, as the genuine-souled little girl, returned from abroad where she has been at school, she sets her wits at work to redeem her family, which has deteriorated under the character-corroding effects of wealth. She not only accomplishes the feat, but incidentally recalls her success as the comedienne of a few seasons ago. Charles Ray scores as usual, as do the other members of the cast.

Fatty Arbuckle appears to great advantage in a most amusing film comedy.

Garick.

While Kentucky mountain feuds may be considered to have had at least their fair share of attention in story, and on stage and screen, a good one is nevertheless always welcome. Such a story, full of thrills and rugged drama, is "Judith of the Cumberlands," written by Alice McGowan, at the Garick this week.

Like a lily among the coarser growth of her environment is the

Judith portrayed by Helen Holmes. Miss Holmes has created a character which, while it is entirely natural and womanly, and consequently supremely attractive, is still miles away from the ingenue-ish prettiness of which we are so weary on the screen. Paul Hurst and the others of the cast are equally to be commended for the individuality as well as the sincerity of their work.

Miller's.

If June Caprice were not full of Mary Pickford curls and girlish laughter—if, in other words, she would give her own most winsome individuality a chance, there are few actresses who would be more wholly sweet and charming. However, even as a Mary Pickford No. 2, she is delightful.

"Little Miss Happiness" is Miss

Hopper's feature; "Stranded," and several others.

Ethel and Brenda Split.

Ethel Clifton, of the vaudeville combination of Clifton and Fowler, will appear in New York in a few weeks in the leading role of a play written by herself called "For Value Received." Her partner, Brenda Fowler, will remain in vaudeville in a new sketch, "Twenty-three Bellevue Annex," which will replace "The Saint and the Sinner," in which the two actress-authorresses played the Orpheum circuit last season.

Don's Daughter Fascinates.

"The Daughter of the Don," now in its third week at the Majestic, continues to draw big houses. The romantic and thrilling story fascinatingly binds the historic facts to-

Edith Lyle

In "Forty-five Minutes From Broadway," which will open tonight at the Burbank, and (above) Mary Melville, clever monologue artist, in her second week at the Orpheum.

Antelope Valley.

CITIZENS PLAN INCORPORATION.

MUNICIPAL ADVANTAGES APPEAL TO LANCASTER.

New Hotel Planned for Mint Canyon on Boulevard—Cattle Company Does Thriving Business—Large Land Sales for Raising of Beets and Alfalfa.

[LOCAL CORRESPONDENCE]

LANCASTER, Aug. 27.—Lancaster will be an incorporated town in the near future if plans made by progressive citizens mature as expected.

Some of the advantages which are being urged for the formation of a municipality are lower fire insurance and a municipal water plant which would insure means of fighting fire and making lawns and streets attractive.

It is considered certain that steps for the making of an up-to-date city will be taken within a short time, and that Lancaster will take its place with the other progressive Southern California towns of its size.

Plans are maturing for the building of an up-to-date hotel at some central point on the boulevard which is being completed through Mint Canyon.

The need for better accommodations has long been felt by motorists and tourists passing through this section, and it is believed that the erection of such a hotel will cause Lancaster to become a terminus for auto parties passing along the picturesque canyon road.

THRIVING BUSINESS.

Recent transactions in hops and cattle by the Lancaster Cattle Company show that the newly formed corporation is doing a thriving business. The company recently bought 400 acres of land for \$25,400 and incorporated with a capital of \$75,000.

Purchases for stock and equipment have since totaled \$14,350. The company's holdings are in Antelope Valley in the center of the stock-raising country.

NEWS BRIEFS.

The Roberts Land and Improvement Company of Lancaster has announced that sales of ranch lands for August to date aggregate \$30,000.

Beet lands and alfalfa tracts have been in demand and many quarter-sections suitable for these products have been sold, eight miles from Lancaster on the Santa Fe.

With wheat bringing \$2.15 per 100 pounds, ranchers are having difficulty in getting their grain to the railroads. Trucks are scarce, and owners demand high prices for hauling. The crop of both barley and wheat has been an excellent one, and farmers are in the midst of a busy harvesting season.

Both pink and white are causing ranchers to rush their harvesting to avoid themselves of market quotations ranging from \$5.50 to \$5 per 100 pounds.

Bathing, yachting, deep-sea fishing at "Hotel del Coronado." (Advertisement.)

RUBBER MANAGER TO CLOSE UP DEAL.

[LOCAL CORRESPONDENCE]

REDLANDS, Aug. 27.—W. S. Condit, the capitalist of this city who is negotiating for the purchase of the big Byrne tract near Hemet by an eastern syndicate, for the establishment of a rubber ranch and factory, is expecting T. L. Carnahan, general manager of the company, to arrive from New York in a few days and at that time the deal will probably be closed for the purchase of the tract.

As soon as it is purchased it will be set out to the rubber plants of the discoverer of the plant in Mexico, says that the climatic conditions here have proven ideal for the plant.

It will be five years before the first acreage put out will be harvested. It has been found that the plant can be grown near Hemet without irrigation. The rains come just the right time for its cultivation.

In Arizona the Guayule plant has been found to require irrigation and this has increased the expenses of the acreage there.

CHANCE FOR LIFE.

Led Whose Skull was Crushed when Caught Between an Ascending Elevator and Roof may Battle of Reeper, Doctors State.

Joseph Fortin, Jr., 13 years old, No. 618 South Spring street, who was seriously injured early Saturday night when caught between an ascending freight elevator and the roof of a building at No. 618 South Spring street, was declared last night by his surgeon to have a fighting chance for his life. He is at the Sisters' Hospital.

The accident occurred when Joseph took possession of the elevator and while running it up through the roof of the building, he was caught between the roof and the elevator. The accident occurred when Joseph took possession of the elevator and while running it up through the roof of the building, he was caught between the roof and the elevator.

Mr. Stambaugh and his wife were returning to their home in an automobile from Long Beach when they saw the garden and decided to search for its owner and purchase some of the melons.

Mr. Stambaugh was taken to the Receiving Hospital for treatment and the man who shot him was held at the University Police Station for investigation. Stambaugh was not seriously wounded.

ASK LEAVE TO BUY.

Santa Monica and Ocean Park Water Company Join in Plea.

A joint application of the Ocean Park Water Company and the city of Santa Monica for authority for the last to purchase the water system of the latter for \$77,500, and the value of extensions and betterments since the date of the commission's valuation, June 30, 1915, was filed Saturday with the State Railroad Commission.

Applications have also been made the commission by the city of Santa Monica for authority to buy the systems of Jones and Binks Water Company and Santa Monica Water Company after they are valued by the commission.

OH, THOSE MUGS!

The melancholy days are here, the saddest of this campaign year, when faces of ambitious gents adorn each tree and high-board fence. Each candidate for public place must go somewhere and get his face imprinted on a placard bold for our mortals to behold. I love to take my headline cart and leave the office and the mart, and go to revel for awhile where man and nothing else is in view, but staring at me like a ghost from every barn and stump and post I see the features of some of the candidates of Jones and Binks Clay. I seek betimes a sylvan glade and think to rest me in its shade there by some softly whispering tangle where I may read the latest yarn, but solitude is not for me, for, smirking from each stump and tree are the photographs of Jones and Binks each pleading for my vote, by jinks. A classy auto flashes by and on each panel I deary some embryonic Edmund Burke or candidate for county clerk. The man who buys tin cans and rags has blankets on his spavined nag with pictures of some lady clown who would be mayor of our town. The valley and the wooded ridge, the culvert and the iron bridge, the pigsty and the crib of corn, these would be statesmen all, Oh, why, I ask, must heads of bone be plastered over every stone along the road, upon the mart, on jitney bus and sprinkling cart?

A. R. ROGERS.

LONG CHAPTER OF ACCIDENTS.

Automobiles Responsible for Serious Injuries.

Nearly Score of People are in List of Victims.

One may Die as a Result of a Fractured Skull.

Four little children, several women, and half a dozen men were injured in three automobile accidents that occurred in various sections of the city yesterday afternoon. The children, ranging in ages from 1 to 4 years, suffered most as all four were cut about the face. Little ones received lacerations and contusions.

An entire family was spilled into the street at Thirty-sixth street and South Park, when Thomas Desmond of Baldtown, stopped his machine too quickly in trying to avoid a collision with a delivery wagon. The small automobile turned over, throwing Mr. Desmond and his passengers, Mr. and Mrs. Dan Hennessy of No. 724 East Fifteenth street, their three children, Daniel, Francis and Mary, and Edward McGraw, a friend of the Hennessys, into the street. All received more or less severe lacerations.

MACHINES COLLIDE.

Mr. and Mrs. F. M. McKnight of No. 211 East Twenty-fifth street, accompanied by their daughter, Mary Klokowski, and her 1-year-old baby boy Paul, were driving west on Adams street, near Gramercy place, when a larger machine, owned and driven by W. B. Labry of No. 547 North Hobart boulevard, crashed into them.

Mrs. Klokowski and her child were thrown into the street, the baby landing on his head. The mother tried to save her child from injury, but only succeeded in precipitating herself on her knees beside the infant. Mr. McKnight was caught by the side of the car, fracturing her ribs.

Miss Caroline Winston of No. 1407

Carroll avenue, a recently graduated nurse, passed by in her automobile at that instant, and the ministered first aid and rushed the two women and baby to the receiving hospital.

Here it was found Mrs. Klokowski had received contusions on her knees. The baby had several abrasions on its chest and lacerations on its head and lacerations.

DUMPS PICNICERS.

A remarkable automobile accident occurred on Downey road, near Bell station yesterday afternoon, resulting in the death of a man and a woman and row escapes for half a dozen others. The accident occurred at the intersection of Downey road and Bell station. A car, owned and driven by Flores of No. 1746 Bishop road, was returning from a picnic. The car was struck by a car coming from the opposite direction, and the car was overturned. The driver, Flores, was killed. The woman, who was seated beside him, was also killed. The other passengers were injured.

At the Receiving Hospital, where the injured woman was taken for treatment, she was found to have a fracture of the skull and many lacerations and about the body. According to Dr. Surgeon A. W. Miller, she may recover.

WANT RED ROSE PETALS.

Unusual Request Received by Officer of Commerce Bureau.

War conditions have brought about being another infant industry in Los Angeles and Southern California. Owing to scarcity from abroad, red rose petals are now needed in the United States, and the transportation bureau of the Commerce has been requested to ascertain if there are any to be had in the pound in this vicinity.

THE ATLANTIC CABLE AND K. J. OGDON, AUG. 28.—Rumania is at war with Germany and Austria. Bucharest declared war on Austria last night. Less than twelve hours later Berlin declared war on Rumania. Turkey and Bulgaria are expected to follow Germany without delay.

A Rumanian army has crossed already into Transylvania, and is engaged in battle with the Austrians on the mountain passes on the southern frontier of Hungary.

On the Pruth and the Danube, a large Russian force is concentrated ready to move down the Danube and reach through Rumania into Bulgaria. Thus a Russian siege soon will be battering the Bulgarians about Saravoff's army.

Rumania's decision to join the allies was reached at a meeting of the
